V1

You are, the breath that breathed life in us
The High Priest of Heaven above
Son of Man, Son of God

You are the Great Prophet foreseen long before
The watchman who prays for us all
The fountain of life to our souls

Chorus

How can we ever stop singing your praise
Jesus the name above every name
We stand in awe of your mercy and grace
You came to save us all
Heaven came down in Love
Emmanuel, Emmanuel

V2

You are the restorer of broken walls
The healer who makes us whole
The author of peace over all
You are redeemer of the world
Shepherd to young and old
Friend to all who call

V3

You are the innocent man in my place
who bore my sin and shame
And you took it to the grave
You rose, forever victorious
Our King ever glorious
The one who came to save

Bridge

There is no higher name
Jesus the risen king
There is no higher name
Be glorified, be glorified
